DELIBERATIVE

Janita—here you go. The draft FR notice is the same as was forwarded on the 21<sup>st</sup>. In the second bullet, I believe Dave is referencing the attached OW-AA letter back to ECOS (if I'm mistaken, let me know). A FL status summary is below and the enforcement briefing document is attached for the bonus 😊

Thanks,  
John

**Florida Status Update**

**Overview and Outstanding Issues**

We understand that FL is targeting this summer to submit an assumption package to EPA. At this time, the key outstanding items include:

# Ex. 5 Deliberative Process (DP)

**Key Upcoming Dates**

**4-5 Mar:** EPA staff (R4, HQ) meeting with Florida staff in Tallahassee to discuss the State's program description and the draft biological assessment as part of the informal consultation under ESA

**11 Mar:** EPA (and public) comments due to state on their proposed regulations and handbook (which lays out the processes for coordination and permit review); staff intends to summarize any issues ASAP after this week's meetings with the state-- if any showstoppers are identified, a quick engagement would be needed 9-11 Mar with senior leadership

**13 Mar:** FL legislative session concludes

**25 Mar:** EPA comments on draft BA due to state
